JOHN SEATH
SUPERINTENDENT OF EDUCATION

ONTARIO
DEPARTMENT OF EDUCATION
SUPERINTENDENTS
OFFICE

Toronto, October 13th, 1914.

Dear President Falconer, -

Perhaps I should add to my letter of the other day that the course for B.Sc.(Agr.) was instituted at the request of this department and that as we accept it as qualification for High School Principals as well as specialists in Science and Agriculture, it is important that the Universities should see that the culture side of the course shall fit the holders of the degree for such positions, The point of view is preparation for teaching in our High Schools, not for positions as Agriculturists.

I enclose the letter which I received from the young man whom I wrote to you about the other day.

Yours very truly,

President Falconer,
University of Toronto,
Toronto.

(Enclosure)

58 Triller Ave., Toronto,
October 8, 1914.

Mr. Seath:

Superintendent of Education,
Department of Education,
Toronto, Ont.

Dear Sir,

Having just entered at the Ontario Agricultural College in my third year of the course leading to the degree B.Sc. (Agr.), I wish to obtain more definite knowledge concerning the work of the third and fourth years. I have completed the first half of the course as outlined at McMaster University. My statement of requirements that I have been able to obtain regarding this course has given a list of the subjects to be taken but has not outlined what course I shall take in those subjects.

The work as I have started it this term is as follows:

English - 3 (the numbers representing the years of the regular course for the B.Sc. in which

this work is given.)

History - special to this course.

Economics - 2, 3. years

Horticulture - 1, 2.

Beekeeping - 1.

Animal Husbandry - 1, 2.

Dairy Husbandry - 1, 2.

Field Husbandry - 1, 2.

Poultry Husbandry - 1, 2.

Botany - 2.

Entomology - 3.

Chemistry - 3, 4. - Qualitative Analysis

Physics - 3. - Cold Storage, Meteorology.

Also, under this arrangement, my timetable is quite unsatisfactory, owing to numerous clashes of classes. I shall enclose a copy of my present timetable and a list of classes registers for, which I am unable to attend.

I wish to ask you if it is advisable for me to continue with such a handicap or if it would be possible that dispensation be granted in certain subjects. In any case I endeavoured to make some arrangements about the work to be done in the third and fourth years. I am replying to my

inquiries I gathered that there would
be difficulties in the way and decided
to continue on a Science course in Art.
However, a former Science master at the
collegiate Institute strongly advised
~~the~~ obtaining of such a degree as
this B. Sc. (Ag.) course offers. So far
I have found the work very interesting
and desire to continue it if it will
be possible for me to do satisfactory
work.

I wish to return to the Ontario
Agricultural College Monday evening,
if you think it advisable, and until
then shall be at the above address.

Yours sincerely,

Frank E. Foulds.

Time table for third year works of course for B.S. (4yr)

<u>Monday</u>	<u>Tuesday</u>	<u>Wednesday</u>	<u>Thursday</u>	<u>Friday</u>	<u>Saturday</u>
8 ⁴⁵ English 3.	Exercise 2	History	Field Stud. 2	Leaving 2	Entomology 3

JOHN SEATH
SUPERINTENDENT OF EDUCATION

ONTARIO
DEPARTMENT OF EDUCATION
SUPERINTENDENTS
OFFICE

Toronto, October 10th, 1914.

Dear President Falconer, -

Let me call your attention again to the urgent necessity for settling the University side of the courses for B.Sc. (Agr.) at Guelph. The young man who has taken the course called upon me to-day and is distressed because matters are in an unsettled condition. As I pointed out to you when I met you last, any decision in regard to the courses should have the support of the two other Universities - Queen's and McMaster - before it is submitted to the Minister.

Yours very truly,

A handwritten signature in ink, reading "John Seath", with a long horizontal flourish underneath.

President Falconer,

University of Toronto,

Toronto.

Dr Seath

Department of Education

Toronto

Dear Dr Seath:

Will you kindly submit to the Minister of Education the following facts that are occasioned by the introduction of the new General Course in Arts during the present Session.-

As you are aware, the Council has been engaged during the past two years upon the revision of the General Course, with a view to lessening the number of subjects and of securing more intensive work. It was found desirable to introduce the full Course at once in order to avoid complications in the Time-table with two concurrent Courses. With the reduction of the number of subjects, and the more intensive work, changes have been introduced into the Honour Courses which are accepted for non-professional academic qualifications. Difficulties in the Time-table, and the lack of laboratory accommodation, render it impossible that in some of these Honour Courses all the Pass subjects, at present required for Specialist's certificates, can be taken.

Dr Seath

-2-

The subjects are chiefly as follows:-

In the First Year....Ancient History and Biology

In the Second Year....Geology

In the Third and Fourth Years....History.

Will you be good enough to ask the Minister to accept for the present Session, for Specialist's qualifications, our present Course in Honours, with such of the Pass subjects formerly included as the Time-table and the laboratories will permit.

I may further state that we are about to revise our Honour Courses themselves and hope to have them ready by the first of December. I shall be glad to inform you of the changes as soon as possible after we have reached a decision.

Yours very truly,

President.

October 30th, 1914

Dr. John Seaton,
Superintendent of Education,
Toronto.

Dear Dr. Seaton:

Miss Laird has seen me this morning with regard to the securing from the Department of Education the recognition for specialist standing of the new General Course in Household Science. That course is built round the new revised General Course and contains sufficient we believe to qualify students as specialists in Household Science, though there is also an additional Honours course in Household Science.

Miss Laird spoke about the matter last spring before it was before the Board of Education and she informed me that you were then quite willing to recognize it and that it would be given to these new courses. There are a number of students who are anxious with regard to their future, and we are anxious to get from you any authoritative statement in the matter.

Yours sincerely,

President.

Toronto, November 5th, 1914.

Dear Dr. Falconer,-

I have discussed with the Minister the propriety of including Sewing in the University Courses and he has promised to communicate with you on the subject some time this week.

Yours very truly,

A handwritten signature in cursive script, reading "John Seath".

Dr. Falconer,

President, University of Toronto,
Toronto.

November 6th, 1914

Dr. John Seath,

Superintendent of Education.

Dear Dr. Seath:

I have just written to Dr. Pyne that after seeing Miss Laird I find that it is possible that sewing can be placed in the second year without undue burden on the student, and that Miss Laird can provide a room in which instruction may be given. In this way I think your desires will be facilitated without our interfering with our regular curriculum and through the department providing the necessary instruction. I hope that these arrangements will prove satisfactory.

I am,

Yours sincerely,

President.

JOHN SEATH
SUPERINTENDENT OF EDUCATION

ONTARIO
DEPARTMENT OF EDUCATION
SUPERINTENDENTS
OFFICE

Toronto, January 26th, 1915.

Dear President Falconer, -

It appears that the Course for B.Sc. (Agr.) now requires some modification and a clearer definition. The Minister has, accordingly, instructed me to ask for a conference of representatives of the three Universities concerned - Toronto, Queen's, and McMaster. For such a conference I propose February 9th in my office in the Parliament Buildings at 10 A.M., and I suggest that your Registrar and yourself or a member of your staff be present to represent your University. Any conclusion arrived at will, of course, be subject to the approval of the Senate of each of the Universities.

I shall be glad to hear from you at your early convenience as to the acceptability of the above proposal.

Yours very truly,

President Falconer, C.M.G.,
University of Toronto,
Toronto.

January 27th, 1915

Dr. J. Seath,
Superintendent of Education,
Toronto.

Dear Dr. Seath:

February 9th at ten o'clock will be a suitable time for me to meet with you other representatives of the Universities in order to discuss the course for the degree of Bachelor of Science in Agriculture.

I have spoken to Mr. Brebner about the date.

Yours sincerely,

President.
